

Utility Billing

FundView Utility Billing provides integrated tools to manage new connections, meter changes, transfers, disconnects, billings and payments. Features include date-driven rate tables, prorated charges by date range and metered/non-metered services.

FundView Utility Billing is a web-based solution that seamlessly manages all phases of the billing process. Multiple metered and non-metered services, consolidated billing accounts, integrated service orders, deposit management, penalties, fees, ACH/online payments and email bill distribution.

FEATURES & BENEFITS

- User-defined services and related rate schedules
- Dependent charge calculations based on usage (i.e. sewer based on water usage)
- Automated deposit management including billed, transferred, applied and refunded
- Share common property/contact master files with all land based FAST solutions
- ACH billing, credit card billing, online payments, integrated e-bills and simplified payment plans
- Comprehensive reporting including usage, payments, penalties, deposits and customer profile

The screenshot displays the FundView Utility Billing interface. The main content area shows a table titled "Utility Accounts / Service Addresses". The table has the following columns: Account #, Customer, Service Address, Account Status, Status Flags, Move In Date, Move Out Date, Balance Status, and Balance. The table contains 15 rows of data, each representing a utility account with its respective details.
