Payroll Management

Complete Payroll Processing with Cloud-Based Efficiency

FundView Payroll provides a complete payroll solution including benefits management, accrual tracking, time entry, payment processing, reporting, and integrated Accounts Payable generation. Easily manage every phase of payroll, from remote time entry to payroll processing and benefits administration, all in one secure, web-based platform.

Key Features:

- ▲ Online timesheet entry with leave validation
- ▲ Vacation and leave accruals with availability and usage tracking
- ▲ Automated distribution of wages and benefits to multiple departments
- ▲ Attach electronic documents and images to employee records
- ▲ Manage deductions and benefits with effective start/stop dates and rate changes
- ▲ Automated Accounts Payable entries after payroll processing

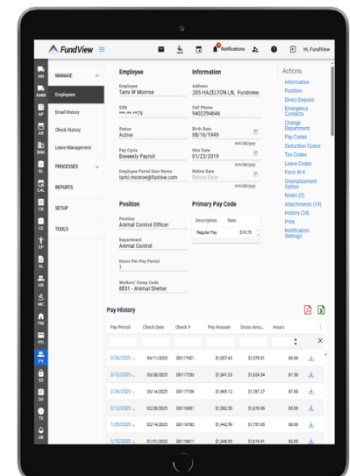

Benefits Management

Simplify Deductions and Benefit Tracking

Manage employee deductions and benefits with flexibility and accuracy. Effective date tracking ensures changes are implemented exactly when they should be, without affecting previous payroll cycles.

Key Features:

- ▲ Track multiple benefit types with varying rates
- ▲ Set automatic start and stop dates for deductions and benefits
- ▲ Easily adjust rates for future payrolls without manual recalculations

Our mission is to empower local governments with modern, cloud-based ERP solutions that streamline operations, enhance financial management, and improve community services.
